REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior art fails to teach : Regarding Claims 1 and 24, a process for making muntin bars (/elongated stock material for fabrication into nuntin bars) comprising the steps of: providing an elongated strip of muntin bar material that has been treated on at least a portion of one side to define an outer surface of a completed muntin bar fabricated from the muntin bar materialk; providing an elongated strip of covering material for controlled application onto a specified portion of the treated portion of the muntin bar material, said elongated strip of covering material including an adhesive for adhering the covering material to the muntin bar material; and bringing the muntin bar material and the covering material into contact with each other to cause the covering material to overlie and adhere to the muntin bar material and form an elongated strip of stock material which is subsequently bent to form a muntin bar; Regarding Claim 33, a process for making muntin bars, comprising: defining a notch that extends inward from an edge of the stock material, and roll forming the stock material to form a muntin bar having a notch for interfitting with a notch of a second muntin bar; and Regarding Claim 35, a process for making a muntin bar grid, comprising defining a first notch that extends inward from a first edge of the stock material, defining a second notch that extends inward from a second edge of said stock material, roll forming the elongated strip of stock material to form an enclosed structure; severing the enclosed structure to form a first muntin bar that includes said first notch and a second muntin bar that includes said second notch and, interfitting said first notch and the second notch to form a muntin bar grid in combination with the other elements of the claimed invention.
